**MANDARINE GESTION ADHERES TO THE UNITED NATIONS  
PRINCIPLES FOR RESPONSIBLE INVESTMENT (PRI)**

Mandarine Gestion has reaffirmed its commitment in favour of responsible investment by signing the Principles for Responsible Investment (PRI) defined by the United Nations Environment Programme Finance Initiative (UNEP FI) and the United Nations Global Compact.

*“The Principles for Responsible Investment correspond to the values that have formed the foundation of Mandarine Gestion’s fund management activities since its founding”, explains Rémi Leservoier, Managing Director of Mandarine Gestion. “By signing these Principles, which notably recognise environmental, social and governance (ESG) fund management criteria, we are confirming Mandarine Gestion’s commitment to more responsible finance.”*

Unlike SRI fund management, which systematically takes into account extra-financial criteria in the investment process, the transversal integration of ESG themes represents a global strategy that provides complementary analysis of companies followed by the fund managers.
